

NAMRUP COLLEGE
P.O. PARBATPUR, DIST: DIBRUGARH
ASSAM -786623

BEST PRACTICES
Academic Year 2018- 2019

Best Practices: 01

1. Title: Approach to the cultural environment.

2. Objective of the practice:

In today generation students are mostly focus on science and technology. Due to the rise in science & technology, cultural activities are coming down among the new generation, they don't contribute towards the cultural activity and they don't puts efforts on their inner talents.

The objectives of this practice are as follows:

- ➔ Creating cultural environment among the students.
- ➔ To get to know the inner talent of the students.
- ➔ To develops a friendly environment inside the campus.

3. The context:

Our college is located in an industrial area, where we can find students from different caste & religions. Drama is such a literature form by which we can find out the students inner talent like acting, singing, dancing, script writing, playing musical instruments etc.

Through hosting drama we can create a positive & creative vibe among the students.

4. The practices:

Namrup College believes in teaching through practice and also focus on the co-curricular activities so that students can balance between their academic carrier and socio-cultural environment.

Students of Namrup College always shows interested towards the practice of fine arts and cultural activity, because of the student eagerness Namrup college Art Forum host a 3 days' workshop on "Drama" Inviting a resource person namely Mr Debabrat Mahanta, Principal of Jorhat, NityaVidyalaya. In the presences of resources person, students get train on the different aspects of "Drama" He also taught the students how to participate and enjoy on the team work to get the definite goal. During the period of workshop the resource person create a friendly and cheerful environment among the

students. On the end of the workshop a musical drama “Be Bold for Change” was played by participant’s students on the auspicious occasion of “International Women Days”.

5. Evidence of success:

With the help of this program, we came across that these kinds of cultural activities will help us to find out the inner talents of the students So that in future these students get success on their talent. Beside the formal education, we hope such activities will encourage the students to parallel carry down the cultural activities.

6. Program encounter & resources required:

In future Namrup College Art Form is planning to host various kinds of activities for the students, but if there is a lack of fund it’ll be not possible to host such kinds of cultural activities for the students.

Best Practices: 02

1. Title of the practice: Tree plantation

For the maintenance of green and eco-friendly environment in the college campus and adjoining areas, Namrup college authority has formed two society- Botanical Society and Green Life Society.

2. Objective of the practice:

Tree plantation activity carried out by the college with the following aims and objective-

- a. To increase awareness to the society in the importance of plantation and saving trees.
- b. To express our concern to the environment.
- c. To reduce the negative effects of climate change.

3. The context:

Since Namrup College is located in an industrial setting area, air pollution as well as water pollution is the major problems. In such situation saving old trees and sapling plantation is one of the promising steps to overcome this problem.

4. The practice:

- a. Efforts are made by the college authority to protect the existing trees in and around the campus as the college has Botanical Garden with a total of 77 numbers of fruit yielding and medicinal plant species. Since there is limited space at the campus we have limited plants; but with sustained efforts sapling plantation was made in our adopted villages of Ghini and Kawoimari. The trees are being well maintained jointly by villagers and college authority.
- b. Special guest lectures are conducted with the objective of making students aware about the role of green plants in reducing environmental pollution and maintaining ecological balance.
- c. College authority has been developed a tradition to felicitate guests by greeting a sapling or potted plants. This is a step towards the direction to promote environmental consciousness.

5. Evidence of practice:

Management of existing trees in the college campus has facilitated to the school students of the adjoining area as it become the learning center for the purpose of field study and also through this activity we are able to convey fruitful communication regarding the importance of saving trees and sapling plantation towards the management of worse environmental pollution.

6. Problems encountered and Resource Required:

In addition to these initiatives, we can also perform many approaches towards green revolution. But due to financial constrain, such activities are yet to be executed.
