

Brief Review Report on Infrastructure and Learning Resources

Namrup College stands with a land campus of 24B 7K 4L(Figure: 1) which may be adequate for developing infrastructure in near future also provided that college creates good academic atmosphere with all stack-holders. College has existing 33 classrooms (Table: 1) and planning to add more to meet its requirement. College tries to implement digital classrooms using two digital classrooms with wifi/ internet connections. College is going digital with 63 computers (DT+LT), scanner and projectors (Table: 2) spread among different centres and departments.

College financial matters is directly related with funds raised from student admissions, UGC, and RUSA. All funds of college, except UGC and RUSA, first deposited in the **General A/c** thereafter utilization of funds goes under separate headings after allocation by inter fund transfer mechanism. Present existing fund headings are- **Union & Festival A/c, Games & Sports A/c, H.S. Exam A/c, Degree Exam A/c, Building A/c, Magazine A/c, Library A/c, Computer A/c, Examination A/c, Development Fund A/c, NSS A/c, Laboratory A/c, Student Aid Fund A/c and Interest A/c..** RUSA and UGC funds are two separate accounts. Whenever expenditure of one particular head (A/c) surpasses its allotted amount, its required amount is generally derived from the General A/c. In general, college always tries to restrict fund over utilization for any heading unless situation demands. Fund under **Interest A/c** is limited and underutilized.

Games and Sports A/c and **Laboratory A/c** are two funds that require bigger allocation for want of joining in different sports events by students, and buying of consumable and instruments in science laboratories that always exceed than its allocations. **Library A/c** needs timely utilization and acquisition of new books to meet new syllabi's (CBCS) requirements. Digitalization of library books stalled for some times for want of funds and technicians on regular basis. Man powers in library is limited that needs some doing by the college.

As per from available data an amount of **Rs.96, 27,778.00** (rupees ninety six lakhs twenty seven thousand seven hundred and seventy eight) only has been received for construction of a **Computer centre** and **Boys' hostel** (still ongoing projects). So far no ongoing project(s) under UGC grants is available in college.
