Academic Year 2017- 2018

The Namrup College is committed to providing holistic education to its students. However, Teaching and Learning remain our core concern, and therefore, the College is working hard to make sure that there is continuous up gradation and improvement in this critical area. At the beginning of each semester, College faculty members prepare course outline, wherein they list the course objectives and learning outcomes of the course, teaching and learning strategy adopted, essential text book and prepare a weekly plan for the whole semester.
