

### A Report on the educational tour to DibruSaikhowa

An educational tour was organised to DibruSaikhowa on 10<sup>th</sup> of march, 2019 by the Department of Physics, Namrup College.

Dibru- soikhowa is a national park located in Dibrugarh and Tinsukia district of Assam. It is a famous national parks of north east India and holds National as well as international importance in the eastern most part of our country. It is a biosphere reserve situated in the south bank of the river Brahmaputra.

Dibru – Saikhowa is a sanctuary which has a large concentration of several endangered species along with a variety of fish. It is famous for wild horse, white winged Wood duck, which is a critically endangered species.

Water sources that run into the famous Matapung Mguri Bill is major wetland along with the Dibru- Saikhowa national park ia major source of fish and migratory birds.

During the tour to this national park students could connect themselves with nature which has been considered as major importance in the present scenerio of global warming. They could detect the endangered species and gain practical knowledge of naure conservation.
