A report on
IQAC Student Meet
Organized by: IQAC, Namrup College
Date: 21st of February (Friday), 2020
Time: 11am
Venue: Conference Hall, Namrup College

Students are the major stakeholder and core of an educational institute. We believe that students are the gems and present and future of our institute. By keeping this in view, IQAC of Namrup College conducted a IQAC and students Meet on 21st of February, 2020 at 11am in the Conference Hall of Namrup College in order to motivate the students. The various topics covered in this meet were importance of morning assembly, punctuality and co-curricular activities etc. A total of 39 students (from both science and arts stream) have participated in this meet. Mr. Rupak Kr. Borgohain, Coordinator, IQAC of Namrup College delivered an informative and fruitful lecture on the importance of Morning assembly. He said morning assembly not only helps student to concentrate but it also gives a platform for all students to come up and speak a few words, thus improving their communication skills. As we believe "Punctuality is the first step towards success" so importance was given on it with an aim to motivate students to be on time in every work and also in morning assembly regularly. Every student has special quality and potentiality and to find out and develop this in a student is also a duty of a teacher and an educational institute. In order to develop qualities and for the all round development, co-curricular activities are must. So, in this meeting co-curricular activities were also focused on. During this meeting, pros- cons of these topics were discussed in a nice way.
